**Policy  
Barriers&VPLUS  
Solutions**

## Policy Barriers

U.S. policies ban Chinese prefilled e-cigarettes, while empty devices lack local filling support. VPLUS solves this dual challenge:

### VPLUS's Unique Advantages:

#### Built in USA

Owens dedicated A, B, and C manufacturing facilities.

01

#### Huge Production

Current capacity of 3 million units per month, expandable to 5 million units per month.

02

#### Fast Delivery

1million e-liquid filling:  
**15 days**  
End-to-End Service:  
**35 days**

## 16 Years in E-Juice Mastery

Founded in 2009, Feellife Health Inc. is a high-end aroma molecule mixing technology with 16+ years of experience in flavor blending and premium aroma molecule mixing. It's committed to providing customers with superior e-juice solutions.

Building on its proven success in China's e-liquid market, we launch VPLUS in the U.S., bringing this validated technology and model to American consumers.

- ▶ Our flavorists, with 16 years of experience, craft premium e-liquids.
- ▶ With state-of-the-art facilities, we meet ISO22000/GMP standards.
- ▶ Experts in nicotine salts, Renico X, and CO2 extraction technologies.
- ▶ Boasting EU TPD and US FDA certifications, we offer over 200 flavors.
- ▶ Partnered with top institutes to establish China's first e-cig liquid standard.
- ▶ Our Huacheng Lab specializes in e-liquid smoke analysis and research.

## Lab Testing

In the United States, VPLUS operates specialized laboratories dedicated to researching and experimenting with vaping technologies.

## VPLUS

helps you accelerate critical approval, verification, and quality management processes while ensuring regulatory compliance.

## QC TESTING

VPLUS implements comprehensive quality inspections for all its products to ensure they meet the highest standards. By showcasing our inspection processes and standards, we provide insight into how VPLUS maintains product reliability and safety through rigorous quality control.

This thorough inspection process not only enhances product quality but also builds greater trust in our brand among consumers.

## PRODUCT MANUFACTURING

- World-Class Production Automation
- 100,000-Level GMP Workshops
- Two Major Production Bases
- International Factory Production System Standards
- FDA Certification Number: K182906

# VPLUS HEALTH SERVICE

Professional engineers assist with formulation, material selection, and maximizing process efficiency.

One-on-one sales support, data feedback, and rapid issue resolution.

# Partnership Proposal

## Proposal A

- (1) Client provides hardware/packaging and flavor base; ships to designated US locations
- (2) VPLUS supplies nicotine, PG, VG in the US
- (3) Samples manufactured and submitted in the US

## Proposal B

- (1) Client provides hardware/packaging; ships to designated US locations
- (2) Client selects VPLUS e-liquids
- (3) Flavor base pre-approved in China
- (4) Samples manufactured and submitted in the US; flavor fine-tuning completed stateside

## Proposal C

- (1) End-to-End Solution: VPLUS provides hardware, e-liquids/packaging;
- (2) Flavor base pre-approved in China
- (3) Samples manufactured and submitted in the US; flavor fine-tuning completed stateside.
